

Street entrance feature

Scale 1:50

Note: Indicative only. The design of these features should reflect the name of the subdivision / streets (not yet known)

Dark finished street lighting poles with light fittings such as Kendelier 'Mini Stork' (illustrated) would contribute a distinctive character to the subdivision

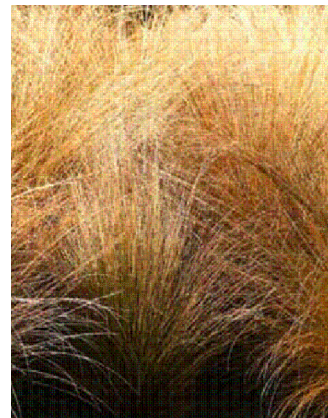

Cordyline australis (Cabbage tree)

Sophora microphylla (Kowhai)
- to be located in Reserve 1 and frontages of adjacent sections

Coprosma propinqua (Mingimingi)

Chionochloa rubra (Copper tussock)

Poa cita (Silver tussock)

Hebe saticifolia (Koromiko) - End of Road 2 only.

Street planting beds to have coarse stone mulch where flat enough and woodchip on steeper banks.

Proposed planting character
